

```
type Person = {  
  firstName: string;  
  lastName: string;  
  age: number;  
  // ...  
}
```

```
type Patient = Person & { ... }
```

```
type Doctor = Person & { ... }
```

```
const fullName = (obj: Person): string => {  
  return `${obj.firstName} ${obj.lastName}`;  
}
```
